### Opis produktu

The ABUS Cable Lock Primo 5510K/180 incl. Snap Cage Holder from Abus with security level 3 of 15 offers a good protection and is particularly suitable for parking spots where there is low risk of theft.

The Primo 5510K spiral cable lock by ABUS is your answer if you are looking for a bike lock for your inexpensive bike or a children's bike. When folded, the ABUS lock can be easily transported in the Snap Cage holder mounted on the bike. The 10 mm thick, super-flexible spiral cable offers good protection when securing the bike around a fixed object in regions or places with a low risk of theft. It is recommended to use the Primo 5510K spiral cable lock as a secondary lock for additional bicycle component security.

- 2 Abus keys
- 1 Abus Snap Cage Holder

#### Technology

ABUS Level System Bicycle locks can have very different requirements. The two main aspects are the bike and the location where you want to lock it. But also the weight of the lock plays a role – a lock on the road must not be too heavy, unlike a lock for home. The ABUS Level System is a transparent system that reflects the security level of the lock. The scale – shown as a speedometer – reaches up to level 15 for bicycle locks, making it easier to find the right lock for you and your bike!
