Product description

The DT Swiss 350 MTB BIG RIDE is a high-quality rear hub designed for demanding mountain bike riders and FAT BIKE enthusiasts. Combining proven DT Swiss technology, a robust construction and outstanding reliability, it ensures efficient power transfer and long-lasting performance, even under intensive riding conditions.

The hub features the proven **Ratchet 18T** engagement system, providing reliable operation and long-term durability. The **Center Lock** disc brake mounting system allows for quick and convenient rotor installation.

The **190x12 mm** axle standard makes this hub suitable for compatible bike frames requiring this specific rear hub spacing, including selected FAT BIKE models. The **Shimano/SRAM HG MTB** freehub body provides compatibility with cassettes using the HG MTB mounting standard.

The black finish offers a clean, modern and versatile appearance, perfectly complementing a wide range of bike builds.

Technical Specifications:

- Brand: DT Swiss
- Model: 350 MTB BIG RIDE
- Type: Rear hub
- Application: MTB / FAT BIKE
- Axle standard: 190 x 12 mm
- Disc brake mount: Center Lock
- Engagement system: Ratchet
- Engagement teeth: 18T
- Freehub body: Shimano / SRAM HG MTB
- Spoke holes: 32H
- Colour: Black

The **DT Swiss 350 BIG RIDE** is an excellent choice for riders looking for a robust, durable and reliable rear hub for compatible MTB and FAT BIKE applications.

The hub is brand new, removed from a brand-new original wheel during disassembly. Never used. Minor marks from the spokes may be visible.
