Product description

CUBE Touring Hybrid Pro 800 Electric Touring Bike – metallicumbra´n´black

The CUBE Touring Hybrid Pro 800 is an electric touring bike for everyday commuting and longer trips. Its aluminium frame with Efficient Comfort Geometry, adjustable stem and suspension seatpost help create a comfortable riding position. An SR Suntour air fork with 100 mm of travel cushions uneven road surfaces.

The Bosch Performance Line PX motor delivers up to 90 Nm of torque and is paired with an 800 Wh PowerTube battery. The Intuvia 200 display shows ride data, while the 1 × 12 drivetrain combines a Shimano XT rear derailleur with a wide-range 10–51T cassette. Shimano hydraulic disc brakes help manage speed. A semi-integrated SIC 2.1 rack, mudguards, lights, chain guard and kickstand complete the practical equipment.
