Product description

Magura Shiftmix handle clamp adapter 1+2 right, for Shimano I-Spec I+II

The Magura Shiftmix handle clamp adapter 1+2 right, designed for Shimano I-Spec I+II, is a reliable solution for cyclists who want to integrate Magura brake handles into Shimano shifting systems. Specifically designed for I-Spec I+II systems, this adapter allows for easy installation of a Magura brake handle on the right side of the handlebar. Offered in black, the Magura Shiftmix 1+2 right handlebar clamp adapter not only provides excellent functionality, but also an aesthetically pleasing appearance.

Main Features:

- **Compatibility:** The adapter is designed for Shimano I-Spec I+II shift handles, allowing easy integration of Magura brake handles with Shimano shift levers.
- **Clamp Kit:** The kit includes a clamp designed for the right side of the handlebar, allowing for complete installation without additional purchases.
- **Color:** The adapter's sleek black color blends perfectly with a variety of bike styles, adding a sleek and modern touch.
- **Sturdy construction:** The bracket is made of high-quality materials, which guarantees reliability and durability in various riding conditions.

The Magura Shiftmix 1+2 Right Handle Clamp Adapter, for Shimano I-Spec I+II, is a must-have for cyclists who want to combine the performance of Magura brake handles with Shimano shifting systems. Thanks to its simple installation and sturdy design, this adapter provides a secure and stable connection, which translates into comfort and safety on every ride.
