Product description

ROCKSHOX

RockShox is a renowned company that produces bicycle shocks and adjustable seatposts. It is known for its high quality, innovation and durability. Founded in 1989, it quickly made a name for itself in the world of mountain biking, providing technical solutions that improve comfort and performance on difficult terrain. RockShox products are often chosen by professional riders and mountain adventure enthusiasts. A brand owned by the SRAM corporation.

Judy Silver provides excellent performance at a reasonable price. Judy Silver TK forks feature rigid steel top tubes and TurnKey™ lockout.

- New design with E-MTB homologation (15x110mm)
- TurnKey lockout provides two-state control (on/off)

- Fits tires up to 2.8" (15x110mm)
- Black 30mm steel top tubes combine stiffness with lightness for an attractive look
- Highly adjustable Solo Air air spring

MAX TIRE WIDTH	81
MAX DISC SIZE	220mm
MIN DISC SIZE	160mm
PACKAGING	OEM

Solo Air™

Solo Air is like a Buddhist monk. Its enlightened design allows air to be added to the forks through a single Schrader valve, filling the positive and negative chambers of the air shock simultaneously. So they always remain in perfect balance, like Yin and Yang. It provides a smooth, predictable ride that you can set up in seconds, thanks to the lightest air spring on the market.
