Product description

Description:
The Reverse freehub body is designed for the Base Single Speed rear hub and ensures reliable power transfer within the drivetrain. The sprocket is permanently connected to the freehub body, providing enhanced stability and consistent performance under demanding riding conditions.

Made from aluminium, the component offers an excellent balance of low weight and durability, making it ideal for MTB single speed setups.

Material: Aluminium
Compatibility: Reverse Base Single Speed Rear Hub
Wheel position: Rear
Application: MTB
