Product description

Fox Racing Float DPS Factory Remote UP Evol ShockFor
a lightweight inline shock, the Fox Racing Factory DPS Evol offers plenty of power and can be controlled f rom the handlebars via Remote Up. The Dual Piston Base valve has special compression and rebound pistons t hat provide solid lockout without compromising compliance or ride control performance.Uncompromised Perfor mance. The dual piston DPS system combines the best possible control with the best possible performance. T his is made possible by two independent oil circuits. Nowhere else will you find more advanced technology in such a small format.

Features - Fox Racing Float DPS Factory Remot e Up Evol Shock- Lightweight, one-piece EVOL air sleeve improves responsiveness and sensitivity- Dual pist on valve design improves both rebound and compression flow- DPS shock with positions - open, medium, hard modes- Factory series model has original Kashima shell- Pitch lock works (PTL) - PUSH TO LOCK
