Product description

Lezyne CO2 Pump Head Clik Drive – CO_2 Inflator Head

The Lezyne CO2 Pump Head Clik Drive is a compact inflator head designed for quickly filling bicycle tyres with CO_2. Its adjustable flow control makes it easy to regulate the amount of gas released and achieve precise inflation.

The CNC-machined control knob provides smooth and controlled operation. The Twin Slip Chuck head is designed for **Clik valves**, allowing the inflator to connect quickly and securely.

The dispenser body is manufactured from CNC-machined aluminium and features durable brass internal components. A neoprene sleeve surrounds the unit to help protect your hand from the cold produced during CO_2 discharge.

The inflator is compatible with threaded CO_2 cartridges and comes supplied with one **20 g cartridge**, so it is ready to use.

Key features:

- Compact CO_2 inflator head for bicycle tyres
- CNC-machined control knob for precise gas flow adjustment
- Twin Slip Chuck head compatible with Clik™ valves
- CNC-machined aluminium dispenser body
- Durable brass internal components
- Neoprene sleeve helps insulate the hand from cold
- Compatible with threaded CO_2 cartridges
- Includes one 20 g CO_2 cartridge
- Weight: **16 g without cartridge**
