Product description

Bosch eBike Systems is a respected supplier of advanced electric drive systems and accessories dedicated to electric bicycles. This unit is part of the well-known **Bosch Group** and specializes in developing and supplying innovative technologies for electric bicycles. Bosch drive systems allow cyclists to tailor their ride to their individual preferences by choosing from a variety of support modes, ensuring maximum control over the power of the support during the ride.

Bosch Display Cable 150mm The Smart System

Bosch Display Cable (BCH3611) - The perfect Bosch Smart System connection for your e-Bike.

The Bosch Display Cable (BCH3611) is an indispensable component for a seamless connection between your display and your e-bike. Specially tailored for the Bosch Intelligent System, this cable is a key part for models manufactured from 2022 onward. Available in various lengths, it allows for a perfect custom fit.

Key features:

- Compatible with the Bosch smart system from 2022 onward.
- Robust design for reliability and durability.
- Genuine Bosch product, guaranteeing excellent quality.
- Easy to install so you can quickly enjoy all the functions of your **e-Bike**.

With the Bosch Display Cable (BCH3611), you'll be assured that your e-bike will operate smoothly and according to the latest technological standards. Choose quality, choose genuine Bosch accessories.
