Product description

ABUS PowerDome MIPS flip flop purple S helmet

For unlimited riding fun

GameChanger, AirBreaker, StormChaser: The ABUS "Made in Italy" helmet family is growing. The PowerDome is manufactured at ABUS' facilities in Italy.

The road helmet features MIPS impact protection, which can reduce the risk of serious head injuries in the event of a fall. It also combines the successful features of top models with the proven features of its predecessor, the Aventor: The PowerDome MIPS is very lightweight and can be individually adjusted to the head circumference thanks to the Zoom Ace adjustment system. The 10 air inlets and 7 air outlets ensure optimal air circulation in any situation - even in high temperatures. Excellent ventilation is further supported by the air intake tunnel on the helmet: It is modeled after the PowerDome hood of sports cars and, as a functional design element, gives the helmet its name. Whether you are on your next gravel ride or racing on the Tuscan coast or in the city: the PowerDome MIPS brings the Italian lifestyle to every ride. This means that, without any doubt, the most important thing is the pleasure of riding. No rules, no dress code, no pressure: With this helmet, the road becomes the destination!

- **Product** PowerDome MIPS
- **Height [mm].** 16
- **Width [mm].** 24
- **Head size [cm]** 51-55
