Product description

ABUS PowerDome shiny black M helmet

A HELMET FOR EVERY OCCASION

GameChanger, AirBreaker, StormChaser: PowerDome is a new addition to the ABUS "Made in Italy" family of helmets.

The PowerDome is manufactured at ABUS' facilities in Italy. It combines the successful features of three top models with the proven features of its predecessor, the Aventure. Thanks to its excellent price/quality ratio, the PowerDome thus becomes the ideal road bike helmet for everyone. It is very lightweight and can be individually adjusted to the circumference of the head thanks to the Zoom Ace adjustment system. The 10 air intakes and 7 air outlets ensure optimal air circulation in any situation - even in high temperatures. Excellent ventilation is further supported by the air intake tunnel on the helmet: It is modeled after the PowerDome hood of sports cars and, as a functional design element, gives the helmet its name. Whether you are on your next gravel ride or racing on the Tuscan coast or in the city: the PowerDome brings the Italian lifestyle to every ride. This means that, without any doubt, the most important thing is to enjoy the ride. No rules, no dress code, no pressure: With the PowerDome helmet, the road becomes the destination!

Product PowerDome

Height [mm]. 16

Width [mm]. 24

Head size [cm] 54-58

Colors shiny black

Facet color black
