Product description

Safety through visibility. Every year cyclists are killed in accidents or injured simply because they are overlooked by other road users. Particularly in low visibility conditions, such as night, dusk, heavy rain or fog, it is therefore extremely important to draw attention to yourself as a cyclist.

Urban-I 3.0 is a well-equipped urban bicycle helmet with many practical features. Its large reflectors provide the cyclist with good visibility - day and night. A large LED rear light with 180° visibility provides additional safety in traffic.

Features

In-Mold provides a durable bond to the outer shell with shock-absorbing helmet material (EPS)

High visibility with reflectors

Excellent ventilation with 12 air intakes and 5 air outlets

Fly net

Ponytail compatibility ideal for those with long hair

Large, high-mounted and integrated LED taillight with 180° visibility

Magnetic Fidlock strap buckle

Adjustable ring combined with an adjustment system that covers the entire head

Zoom Ace Urban - precisely adjustable adjustment system with handy knob for a customized fit
