HJC FURION 2.0 Bicycle Helmet Olive-Black r. L

Price	220.88 €
Availability	 Available
Number	50018192
Producer code	81213703
EAN	8804269651650

Product description

The Furion 2.0 is considered an uncompromising masterpiece, as it combines outstanding aerodynamics and efficient ventilation.

Thanks to HJC's expertise in MotoGP racing helmet concepts, the FURION's aerodynamic, innovative and simple design enhances its performance and airflow for optimal air penetration and improved cooling capabilities.

The Furion 2.0 perfectly balances drag force with an advanced ventilation system. Thanks to its aerodynamic shape and extremely light weight (about 195 g), this helmet will save you up to 7% of your riding energy compared to the competition. It also features strap spacers and X-Static anti-microbial pads.

The helmet comes complete with spare pads and a bag when you want to take it on the road.

SELFIT™

SELFIT™ is an automatic, self-adjusting system that is a revolutionary technology in bicycle helmet fit.

Once the helmet is fitted to your head, it requires no further adjustment, even when your head moves while riding. The SELFIT system automatically adjusts the spacing and provides the perfect fit and comfort for your head.

5 STEP SNAP FIT™

5 STEP SNP FIT™ provides consistent fit and comfort for all head types and sizes. The rider can fine tune their helmet fit.

COOLPATH™

COOLPATH™ is a new technology patented by HJC. Replacing the inner liner allows cool air to flow around the head and improves comfort while riding. The cool air flow and lightness of the helmet improve the fit and provide a superior riding experience.
