### Product description

A2Z Blue brake pads - semi-metallic, provide a 50% increase in pad life and 10% increase in braking power, are made of asbestos-free ceramic materials and are rated as one of the best on the market.

Compatible with brakes: Hope XC 4-piston

They feature high temperature resistance up to 500oC minimizing "fading". The special compound developed by Fastop provides improved braking and control in all conditions, in addition, they are equipped with wear indicators signaling the need to replace the pads.

A2Z pads are used by the best riders in the world and for many years have been a tycoon on the Polish market - trust the best !
