## Product description

Wheels with spokes CX Ray + valves red alu x 2pcs At FITWHEELS we create wheels. As many as there are riders, so many are the needs for selecting and personalizing the right set of wheels. When producing a wheel, we use only components from reputable companies. In order to meet the needs of the customer, we make it possible, using the contact form, to fully customize wheel specifications. All wheels built by FITWHEELS go through a demanding process to ensure the high quality of the final product. DT Swiss - Swiss manufacturer of wheels, hubs, rims and other components necessary for the construction of wheels at the highest level. The brand's products are known for their high quality workmanship, reliability and unique design.

Sapim - Belgian company specializing in the production of spokes and nipples for wheel production. Together with the DT Swiss Company, they are the undisputed market leaders in their industry. The presented set of wheels is built in DT Swiss and Sapim components. The set is designed for demanding users who value reliability, low weight and individual design. The set of wheels is compatible with the tubeless ready system. The wheels feature DT Swiss tubeless ready tape. If you would like to make changes to the presented set, please contact us. We can prepare your customized set of wheels. The wheels are equipped with DT Swiss 350 hubs, synonymous with durability and trouble-free performance. The front hub has two machine bearings. The rear hub is equipped with four machine bearings and a ratchet (18-tooth) system, which guarantees perfect freewheel operation. Servicing the rear hub is very easy. Service does not require the use of tools. XR391, which is DT Swiss's top aluminum rim model. It has 25mm internal width . Very desirable rim by marathon and xc racing enthusiasts. Thanks to the use of PHR washers, which distribute stress over a large area of the rim, the wall thickness can be kept as small as possible to reduce the rotational mass on the bike as much as possible. All this to achieve one simple goal: faster riding. The components that connect the hubs to the rims are the spokes and nipples.

The Sapim CX Ray spokes used for the wheels are a combination of excellent aerodynamics, lightness and strength. These aerodynamic cold-forged spokes are used by professionals all over the world - road racers, triathletes and even downhillers. They not only make the wheels lighter but also stronger. The spoke is flat and shaded. Its starting and ending dimensions are 2mm. In the middle section, the spoke is flat and has a dimension of 0.9x2.3mm. The anodized Sapim polyax nipples are coated with a special coating that increases strength and allows easier wheel building. The aluminum nipple definitely reduces the weight of the wheels. Sapim's patented Secure Lock technology is a locking mechanism that prevents the nipples from unscrewing. Highly precise and accurate machines have been specially developed to produce this type of locking system.

## This product has additional options:

**Front axle**: 12/100 mm TA (+ 14.81 € ), 15/100 mm TA , 15/100 mm TA + adapter QR 5mm (+ 15.95 € ), 15/110 mm PS , 15/110 mm TA / Boost (+ 9.11 € ), 5/100 mm QR (+ 18.23 € )
**Rear Axel / freehub**: 12/142 mm TA Shimano MTB , 12/142 mm TA Sram XD MTB (+ 15.95 € ), 12/148 mm TA / Boost / Shimano Microspline (+ 43.29 € ), 12/148 mm TA / Boost / Shimano MTB (+ 9.11 € ), 12/148 mm TA / Boost / Sram XD MTB (+ 25.06 € ), 5/135 mm QR Shimano MTB (+ 15.95 € ), 5/141 mm QR / Boost / Shimano MTB (+ 9.11 € ), 5/141 mm QR / Boost /

Sram XD MTB (+ 25.06 € )
**2x Valve DT Swiss tubeless 32mm**: No , Yes (+ 11.16 € )
**System Ratchet**: Ratchet 18T , Ratchet 36T (+ 45.56 € ), Ratchet 54T (+ 82.01 € )
**Front hub**: DT Swiss 350 straightpull disc brake
**Rear hub**: DT Swiss 350 straightpull disc brake
**Brake type**: disc
**Brake rotor mounting system**: CL - CenterLock , IS - 6 bolt
**Rims**: DT Swiss XR 391
**Wheel size**: 29''
**Rim material**: Aluminium
**Quantity of spokes front/rear**: 28 / 28
**Tires type**: Clincher
**Compatible with Tubeless systems**: Yes
**Rim inner width**: 25mm
**Colour of spokes**: black
**Spokes**: Sapim CX-Ray Straight pull
**Nipples**: Sapim SILS sLock polyax aluminium
**Riding Styles / Intended use**: Cross Country
**Recommended system weight max.**: 110kg
**Warranty**: 2 years
