Product description

At FITWHEELS, we make the wheels. As many cyclists there are, there are so many needs for selecting and personalizing the right set of wheels. When producing a wheel, we only use components from reputable companies. To meet the needs of the customer, we make it possible, using the contact form to fully customize the wheel specifications. All wheels built by FITWHEELS go through a demanding process to ensure the high quality of the final product. DT Swiss - Swiss manufacturer of wheels, hubs, rims and other components necessary for the construction of wheels at the highest level. The brand's products are known for their high quality workmanship, reliability and unique design. NoTubes - an American brand that hardly needs to be introduced to anyone. Stan's NoTubes specializes in the production of bicycle wheels and rims of the highest quality for all varieties of cycling.

Sapim - Belgian company specializing in the production of spokes and nipples for wheel production. Together with the DT Swiss Company, they are the undisputed market leaders in their industry.
