Modern gravel bikes are practically made to use single-tooth drivetrains. And the SRAM Force 1 12-speed crank is the perfect tool for you. As an essential part of SRAM's X-Range technology, it converts the gear range from front to rear. This leads to a lightweight, durable and intuitive drivetrain that, when paired with the SRAM XPLR 10-44t cassette, offers the ideal gear range for varied terrain. The SRAM Force AXS crank has been specifically designed to handle electronic systems. In addition to its sleek carbon arms, it also gives you the option of upgrading to a powerful power meter at any time.
