Product description

The SRAM RED crank features an all hollow design for the spider. Its hidden bolt pattern allows better use of carbon fiber for improved stiffness and lower weight. As always, the Srama X-GlideR™ chain must be used for smooth, trouble-free operation and Yaw™ compatibility.

It requires a certain degree of passion and sophistication to fully appreciate the SRAM RED.

Compatible with SRAM 11-speed road groupset

Compatible with SRAM RED GXP®, PressFit, BB30, PressFit 30™ eTap components.

Exogram™ technology uses a large, hollow cross section for the spider, minimizing weight, maximizing stiffness
