Product description

The RACE FACE ARC HEAVYDUTY 30 is a strong, reinforced rim designed for demanding off-road riding. It is an excellent choice for XC, All Mountain, Trail, Enduro and Downhill bikes, where durability, stiffness and reliability are essential.

Its asymmetric design helps balance spoke tension on both sides of the wheel, resulting in a more even spoke distribution and improved overall wheel stiffness and stability. The reinforced HEAVYDUTY version offers additional strength and durability, making it suitable for aggressive riding and challenging terrain.

The rim is **Tubeless Ready**, allowing the use of a tubeless tyre setup. Please note that rim tape is not included.

Technical specifications:

- **Model:** RACE FACE ARC HEAVYDUTY 30
- **Wheel size:** 29"
- **Spoke holes:** 32H
- **Design:** Asymmetric, reinforced HEAVYDUTY version
- **Intended use:** XC / AM / Trail / Enduro / DH
- **Tubeless system:** Tubeless Ready
- **Internal width:** 30 mm
- **External width:** 34 mm
