## Product description

The RACE FACE ARC Offset 30 is a high-quality bicycle rim made from durable 6069 aluminium, designed for demanding off-road riding. It is suitable for XC, All Mountain, Trail, Enduro and Downhill bikes, offering an excellent combination of strength, stiffness and reliability.

Its asymmetric construction, featuring a 4.5 mm offset, helps balance spoke tension between both sides of the wheel. This results in a more even spoke tension distribution, improved wheel stiffness and greater overall stability.

The rim is **Tubeless Ready**, allowing the use of a tubeless tyre setup. Please note that rim tape is not pre-installed and is not included.

The black brushed anodised aluminium finish with grey graphics gives the rim a clean, modern appearance.

### Technical specifications:

- **Model:** RACE FACE ARC Offset 30
- **Wheel size:** 29"
- **Spoke holes:** 28H
- **Material:** 6069 aluminium
- **Design:** Asymmetric
- **Offset:** 4.5 mm
- **Intended use:** XC / AM / Trail / Enduro / DH
- **Tubeless system:** Tubeless Ready
- **Internal width:** 30 mm
- **External width:** 34 mm
- **Rim height:** 20 mm
- **Weight:** 525 g

- **Colour:** Black brushed anodised aluminium with grey graphics
