Product description

The Micro Floor Drive XL is a portable hand pump with floor pump functions developed to efficiently inflate thick bicycle tires. It features CNC machined aluminum construction to keep its weight as low as possible without sacrificing durability. The extra-large capacity barrel produces large volumes of air with each pump and can inflate tires up to 35 psi (2.4 bar). The long, integrated hose and stainless steel footrest improve pumping performance and reduce downtime on the trail. The ABS Flip Chuck is compatible with both Presta and Shrader valves and is threaded into the base of the pump for optimal storage.

Specifications
Color: black
Dimensions: 303 mm | 367g
Max: 35 psi | 2.4 bara
