Product description

NOTE !!! - Suport TF4630 (C3) has bowls with a slightly larger diameter. Designed for frames in which the bottom bracket muffle is worn out

A very high quality bottom bracket made in such a way as to minimize creaking and optimally protect the bearings. This bottom bracket not only perfectly solves the noise problem, but also stiffens the crank axle making our drive even more efficient.

NINJA - is a new series of really top quality components. Everything perfected to achieve the highest performance.
