Product description

Suprt on TBT ceramic bearings

A very high quality slide designed for DUB (SRAM) standard cranks and PF30 (46mm) frames. It is based on the proven NINJA type design. These slides are characterized by very low rolling resistance, maximum stiffness and quiet operation. They are very easy to overhaul and service. And the availability of bearings and spare parts makes it a slide for many seasons. Positive feedback from users and the increase in popularity of these slides has made NINJA the best solution for Pressfit frames available on the market
