Product description

Brake Disc Reverse AirCon 140 mm (RED)
Reverse Brake Disc AirCon – High-Performance Rotor with Cooling System

The Reverse Brake Disc AirCon is a cutting-edge rotor designed to combat heat buildup during intense braking. This three-piece rotor features integrated aluminum cooling fins, significantly lowering brake temperatures and maintaining optimal performance.

AirCon technology delivers:

- Up to 50°C less heat after 1 minute of continuous braking
- 20 seconds faster cooldown than standard rotors
- Even greater efficiency when combined with AirCon brake pads

Specifications:

- Sizes: 140 mm, 160 mm, 180 mm, 203 mm
- Mount: 6-bolt standard
- Compatibility: universal (except Fox 32, QR15 x 100 mm)
- Materials: Steel (rotor), Aluminum (cooling fins and carrier)
- Anodized and laser-engraved finish
