Product description

Product Code Description

SM-RT70 brake discs are distinguished by their high and even braking power when riding in all conditions. ICE TECHNOLOGIES discs significantly reduce heating of the braking system, guaranteeing even braking even during long descents. SHIMANO's CENTER LOCK mounting system enables efficient disc installation and removal with a spline and special locking ring design.

Product Features

- Clear, confident braking whenever you need it, thanks to ICE TECHNOLOGIES
- Improved heat dissipation
- Three-layer construction - stainless steel/aluminum/stainless steel
- Low weight

Product Specifications:

- Disc nut
- Without locking ring
- Outside diameter (mm) - 140
