Product description

The Reverse 3D-printed can holder is a universal solution that fits many standard beverage cans and works perfectly for bike trips. The mechanism located at the bottom of the holder makes it easy to insert and remove the can even after very demanding descents. Its 3D-printed construction combines low weight with solid stiffness and practical functionality. An additional advantage is the two guides for zip ties, which allow extra gear such as an inner tube to be attached.

Model: Reverse Dosenhalter 3D-Druck
Purpose: universal can holder
Compatibility: many standard beverage cans
Mounting: standard bottle cage mount
Additional features: two guides for zip ties for securing extra gear
Material: high strength 3D-printed PLA
Available can size: 0.33 l
